## CAREER OBJECTIVE

I'm a Computer Science student who is currently pursuing 3rd year in Bachelor of Engineering. I have a strong hold on Frontend Web Development and can develop great UI/UX responsive websites with JavaScript, HTML, CSS and other libraries and frameworks to deliver exceptional customer experiences. I'm aiming to work in a challenging environment to utilize my technical skills towards development and implementation of new ideas, contributing to the growth of the organization as well as my career.

## EDUCATION

Bachelor of Engineering, Computer Science

**Sambhram Institute of Technology**

📅 2018 - current

📍 Bangalore, Karnataka

🎓 CGPA: 7.4

Secondary and Higher Secondary (10th & 12th)

**Kendriya Vidyalaya No.1 Jalahalli West**

📅 03/2015 - 03/2018

📍 Bangalore, Karnataka

## PROJECTS

### TMIA

[view project](#) | [view code](#)

- The Movie Info App is a site made using TMDB API which gives us the rating and a short overview of movies and TV shows.
- User can either search for a movie or can use genre filters.
- It is responsive and made using JavaScript.

### Simon Game

[view project](#) | [view code](#)

- It is an online version of the classic electronic game of memory skill "Simon".
- This game can be used to improve kid's concentration and memory capacity. He will learn to coordinate what he hears with what he sees, and to follow and reproduce the order shown which will train his cognitive skills and obedience.
- The logic of the game is written in JavaScript and jQuery.

### Beatzz

[view project](#) | [view code](#)

- It is an user friendly music streaming website which has a list of some of my favorite songs.
- It has a great UI/UX design and is highly responsive and is made using JavaScript.
